PROFILE

I am a passionate and dedicated Computer Science undergraduate, currently pursuing my B.E. in Mahendra Engineering College, Amakkal. Hailing from Salem, I aim to build a career as a Full-Stack Developer. With hands-on experience in both front-end and back-end technologies, I enjoy building complete, user-friendly applications. I am constantly exploring new tools and frameworks to strengthen my skills and contribute to impactful, end-to-end software solutions.

PROJECTS

1. Online Furniture Shop

Technologies Used: Python (Tkinter), HTML, CSS, MySQL

- Developed a user-friendly furniture shopping platform where users can browse, order, and pay for furniture items.
- Integrated an admin module for updating inventory and managing product listings.

2. Hotel Management System

Technologies Used: Python (Flask), HTML, CSS, MySQL

- Built a hotel booking system enabling users to check room availability, book rooms, and make payments.
- The admin interface allows hotel staff to update room inventory and manage bookings efficiently.

3. Resume Ranking System with AI & Mock Interviews

Technologies Used: Python (Flask), HTML, CSS, MySQL

- Designed a smart resume analyzer that scores resumes based on user-specified job roles.
- The system includes an AI-powered mock interview module that simulates real-time interview scenarios to help users prepare for MNC-level interviews.
